KGS Software named Top Company 2024 by kununu award

Neu-Isenburg, February 28, 2024 - The innovative projects, the young team, the respectful interaction and the flexible working time models have convinced the employees of KGS Software GmbH and earned the company the kununu Top Company 2024 award.

With an above-average score of 4.3, the Neu-Isenburg-based company has underlined its exceptional employer qualities for the third time in a row. Philipp Geyer, Head of People & Culture at KGS Software GmbH: "Central to our work culture is the phrase "What can I do today to make you as successful as possible? This applies not only within kgs, but also to the employees of our customers and business partners. This claim is certainly both a description and a goal. I am delighted with last year's great result, as it shows that we are moving in the right direction."

With a score of 4.3, kgs is not only one of the most popular employers in the Rhine-Main region but has also made a name for itself in the German IT scene. The kununu score reflects how satisfied employees are with the team spirit, the variety of tasks and corporate culture, as well as the working environment and the earning and career opportunities. Quote from an employee in a kununu review: "A lot of intelligent people who really want to make a difference come together here. So far, I have not met anyone who seems dissatisfied. In addition, the managers try to be on an equal footing with the employees and to communicate the work well. I've never had a job like this before, where I really feel completely involved and understood."
