

tia[®] Web Service

Archive connection beyond SAP - makes ArchiveLink easily available to applications as a standard interface. tia[®] Web Service is an archive connection for any application that can operate a SOAP WEBSERVICE.

At a glance

- SOAP WEBSERVICE for accessing ECM/DM/ archiving systems via ArchiveLink[®]
- For use with any platform (Windows and Linux)
- Low resource requirements
- Support for document and storage and research
- Secure communication (HTTPS, encrypted URLs, authentication certificates)

Benefits

- Licensing model is user independent
- Can be used with any ECM/DM/archiving systems compatible with ArchiveLink[®]
- Easy implementation
- Designed for high data throughput and parallel access

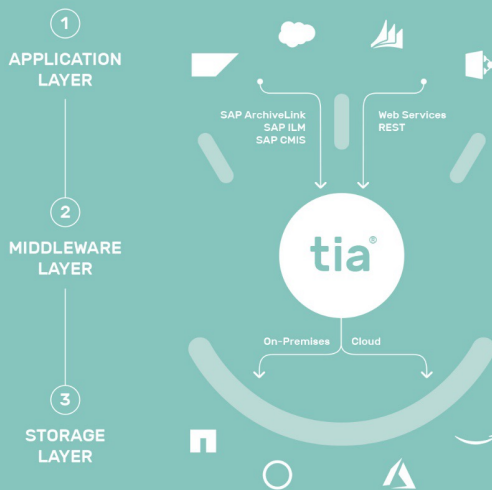

Highlights

- Web Service, the ArchiveLink[®] that makes standard archive interfaces available for all applications.
- Can be used on different platforms
- Tried and tested technology (SOAP)
- Easy to use: can be implemented without assistance from the manufacturer
- Fully scalable
- Encrypted communication
- Authentication with certificates

tia[®] Web Service

About kgs

KGS Software GmbH, headquartered in Neu-Isenburg near Frankfurt am Main, has been the digital archive specialist for top companies worldwide for over 20 years. Data and documents from SAP as well as documents from other leading applications are migrated and archived using high-performance, lean software.

Under the brand "tia[®]" - the intelligent archive - the archive manufacturer has been uniting all kgs product modules into a common vision of the intelligent document archive since 2020. tia[®] stands for autonomous archiving, is connectable to any applications, storage solutions and cloud technologies and offers companies the single point of truth (SPoT) for accessing documents. kgs has been certifying ArchiveLink[®] and ILM interfaces for SAP worldwide since 2005 and is a global SAP Value Added Solutions Partner.
