Neu-Isenburg , March 29, 2023 – KGS Software GmbH is once again one of the organizations leading the ranking of the most popular employers in the IT sector. With a score of 4.3 points, kgs was able to further improve the result of 2022 and can also look forward to good results for the working environment, corporate culture, variety of tasks and pay.

"We are very proud that we were able to further improve our score compared to the previous year," says Winfried Althaus, Managing Director of KGS Software GmbH. "Kununu is Europe's largest employer rating platform and plays an important role in the job search today. I am all the more pleased that we have been named "Top Company 2023" and are one of the most popular and successful companies. This confirms our team philosophy of building the company's success on inspiration, mentoring and enablement . We are aware of the contribution of each and every individual and see the Kununu rating as proof of this."

This success is based on a special mixture of an innovative product portfolio, a convincing market presence and a lively New-Work concept. The positive evaluations reflect the appreciation every kgs employee and their work receive. The team concept is not an empty phrase here, but a living principle that can be felt internally and externally and contributes significantly to the sustainable success of the company in a highly dynamic market.

KGS Software GmbH

Die KGS Software GmbH mit Hauptsitz in Neu-Isenburg bei Frankfurt am Main ist für Top-Unternehmen weltweit seit über 20 Jahren der digitale Archivspezialist. Daten und Dokumente aus SAP sowie Dokumente aus anderen führenden Applikationen werden mittels performanter, schlanker Software migriert und archiviert. Unter dem Brand „tia®“ – the intelligent archive – vereint der Archivhersteller seit 2020 alle kgs Produktmodule zu einer gemeinsamen Vision des intelligenten Dokumentenarchivs. tia® steht für autonome Archivierung, ist anschlussfähig an beliebige Anwendungen, Speicherlösungen und Cloudtechnologien und bietet Unternehmen den Single Point of Truth (SPoT) für den Zugriff auf Dokumente. Seit 2005 zertifiziert kgs für die SAP weltweit ArchiveLink® und ILM-Schnittstellen und ist globaler SAP Value Added Solutions Partner. Also, the tia® CMIS interface was officially certified by SAP in 2022 as the first in the market. Weitere Informationen unter: www.kgs-software.com
