Neu-Isenburg, September 9, 2025 – Marking its 25th anniversary, KGS Software GmbH will be celebrating at this year's DSAG Annual Congress in Bremen from September 16–18, 2025. In addition to the traditional exchange of expertise and networking, customers and congress visitors can look forward to a variety of gifts, surprises, and live entertainment at the kgs booth.

Winfried Althaus, CEO of KGS Software GmbH: "At the DSAG event, we would like to thank our customers and partners. Together with them, we have accomplished a great deal over the past years. I am particularly pleased to see how our team consistently takes a leading role in managing new technological and process-related challenges, and in developing future-oriented solutions for businesses. This perfectly reflects the motto of this year's DSAG Annual Congress, 'THE ART OF BALANCE' – finding the right balance between stability and innovation, between tradition and future."

This guiding principle also shapes kgs' presentation at booth C11. Around the core topic of SAP archiving, this year's highlight will be S/4HANA, RISE, and GROW. Visitors will learn how companies can build and operate future-ready SAP archiving together with kgs. A special focus will be on the requirements of hybrid landscapes, which today are a reality in most organizations. In line with "THE ART OF BALANCE," kgs will demonstrate how cost-efficiency and flexibility, cloud and on-premises worlds, as well as stability and innovation, can be brought into harmony.

press release

In addition, kgs will also be celebrating its anniversary at the booth – with an exciting raffle, five attractive prizes, and special live show acts. The kgs team is looking forward to engaging with customers, partners, and prospects—and to the next 25 years of shared success.

KGS Software GmbH

KGS Software GmbH has been a leader in SAP archiving for over 25 years, offering the highest level of expertise. Leading companies worldwide – such as Lufthansa Group, Procter & Gamble, BMW, and Kärcher – rely on kgs solutions. Data, documents and attachments from SAP, as well as attachments from other leading applications like Microsoft SharePoint, are migrated and archived using cloud-native, high-performance software.

Under the brand "tia®" – the intelligent archive – kgs unites all product modules under a common vision of the intelligent document archive. tia® stands for autonomous archiving, is compatible with any applications, storage solutions, and cloud technologies, and provides companies with a Single Point of Truth (SPoT) for document access. tia® supports the SAP certified interfaces ArchiveLink®, ILM, and CMIS. With the world's first SAP-certified CMIS interface, kgs' technological leadership in document management was once again confirmed in 2022.

kgs is headquartered in Neu-Isenburg near Frankfurt am Main, with a branch in Atlanta, Georgia. www.kgs-software.com
