Winfried Althaus, MD of KGS Software GmbH, says, "SAP clients now have an easier way to find and order kgs's solutions. Companies can gain an overview of our portfolio and become actively involved."

kgs tia® Content Server is a high-performance archive developed specifically to cater to the needs of SAP archiving. As a lean solution, the SAP archive system enables legally compliant document and data archiving as well as archiving of print lists via SAP ArchiveLink®, Content Management Interoperability Services, SAP Information Lifecycle Management service, and SAP S/4HANA®. It is also available for free trial on SAP Store.

kgs tia® Migration is a fast, robust migration tool that helps customers move data and documents from one archiving source to another archive. The technology allows users to go on working without any remarkable impairments while the migration happens "silently" in the background.

SAP Store, found at [store.sap.com](https://store.sap.com), delivers a simplified and connected digital customer experience for finding, trying, buying and renewing more than 1,800 solutions from SAP and its partners. There, customers can find the SAP solutions and SAP-validated solutions they need to grow their business. And for each purchase made through SAP Store, SAP will plant a tree.

KGS Software GmbH is a partner in the SAP PartnerEdge® program. As such, it is empowered to build, market and sell software applications that supplement and build on SAP software and technology.

The SAP PartnerEdge program provides the enablement tools, benefits and support to facilitate building high-quality, disruptive applications focused on specific business needs – quickly and cost-effectively. The program provides access to all relevant SAP technologies in one simple framework under a single, global contract.

## About company

KGS Software GmbH with headquarters in Neu-Isenburg near Frankfurt am Main, has been the digital archive specialist for top global companies for over 20 years. Data and documents from SAP as well as documents from other leading applications are migrated and archived using efficient, lean software. Under the brand "tia®" – the intelligent archive – kgs has been uniting all product modules into one common vision of the intelligent document archive since 2020. tia® signifies autonomous archiving, can be connected to any applications, storage solutions and cloud technologies and provides companies with the single point of truth (SPoT) for accessing documents. Since 2005, kgs has been certifying SAP ArchiveLink and SAP Information Lifecycle Management service interfaces for SAP worldwide and is a global authorized reseller of SAP solutions.
